

# Careers in the Music Industry

“Released in Salem Press’s “Careers In” series, **this volume introduces the range of career opportunities, from musicians and songwriters to architects and therapists, available to those interested in the music industry.** Some 30 occupations are profiled, from record-label executive to event planner to disc jockey. Snapshots offer current data on median pay, job outlook, educational and other requirements, and working conditions. **Career overviews describe duties, work environments, and work schedules. Each profile includes personal qualities suited to the job, specific and general job requirements, and anticipated rates of growth.** Also included is a list of related occupations and a list of resources for more information, with profession-specific associations and certifying bodies. Statistical data, including projections from the US Bureau of Labor Statistics and median annual salaries, are provided for those occupations profiled.

**Summing Up: Recommended. Lower- and upper-division undergraduates and general readers, including those in two-year technical programs.”**
