

## CONTENTS

Publisher's Note . . . . .	vii	Drainage Basins . . . . .	166
Introduction . . . . .	ix	Drought . . . . .	171
Contributors . . . . .	xi	Earth-Sun Relations . . . . .	177
Common Units of Measure . . . . .	xiii	El Niño/Southern Oscillations (ENSO) . . . . .	181
Complete List of Contents . . . . .	xix	Floodplains . . . . .	187
Category List of Contents . . . . .	xxii	Floods . . . . .	193
		Freshwater and Groundwater	
Acid Rain and Acid Deposition . . . . .	1	Contamination Around the World . . . . .	199
Air Pollution . . . . .	7	Ganges River . . . . .	204
Alluvial Systems . . . . .	13	Geochemical Cycles . . . . .	209
Amazon River Basin . . . . .	18	Global Energy Transfer . . . . .	213
Aquifers . . . . .	22	Global Warming . . . . .	216
<i>AR4 Synthesis Report</i> . . . . .	28	Great Lakes . . . . .	221
Aral Sea . . . . .	31	Greenhouse Effect . . . . .	226
Arctic Ocean . . . . .	35	Groundwater Movement . . . . .	230
Artificial Recharge . . . . .	40	Groundwater Pollution and Remediation . . . . .	237
Atlantic Ocean . . . . .	45	Gulf of California . . . . .	245
Atmosphere's Evolution . . . . .	51	Gulf of Mexico . . . . .	249
Atmosphere's Global Circulation . . . . .	57	Gulf of Mexico Oil Spill . . . . .	253
Atmosphere's Structure		Gulf Stream . . . . .	257
and Thermodynamics . . . . .	62	Hudson Bay . . . . .	262
Atmospheric and Oceanic Oscillations . . . . .	70	Hurricane Katrina . . . . .	267
Atmospheric Properties . . . . .	75	Hurricanes . . . . .	271
Auroras . . . . .	79	Hydrologic Cycle . . . . .	277
Barometric Pressure . . . . .	83	Hydrothermal Vents . . . . .	282
Beaches and Coastal Processes . . . . .	86	Ice Ages and Glaciations . . . . .	288
Black Sea . . . . .	91	Icebergs and Antarctica . . . . .	292
Bleaching of Coral Reefs . . . . .	95	Impacts, Adaptation, and Vulnerability . . . . .	295
Carbonate Compensation Depths . . . . .	98	Indian Ocean . . . . .	299
Carbon-Oxygen Cycle . . . . .	104	IPCC . . . . .	304
Caspian Sea . . . . .	108	Lake Baikal . . . . .	308
Climate . . . . .	112	Lakes . . . . .	313
Climate Change Theories . . . . .	118	Lightning and Thunder . . . . .	319
Climate Modeling . . . . .	122	Long-Term Weather Patterns . . . . .	324
Clouds . . . . .	126	Mediterranean Sea . . . . .	327
Cosmic Rays and Background Radiation . . . . .	131	Mississippi River . . . . .	332
Cyclones and Anticyclones . . . . .	136	Monsoons . . . . .	337
Dams and Flood Control . . . . .	140	Nile River . . . . .	342
Deep Ocean Currents . . . . .	146	Nitrogen Cycle . . . . .	347
Deep-Sea Sedimentation . . . . .	151	North Sea . . . . .	351
Deltas . . . . .	156	Nuclear Winter . . . . .	355
Desert Pavement . . . . .	161		

## CONTENTS

Common Units of Measure . . . . .	vii	Severe and Anomalous Weather in Recent Decades . . . . .	508
Complete List of Contents . . . . .	xiii	Severe Storms . . . . .	512
Category List of Contents . . . . .	xv	Surface Ocean Currents . . . . .	518
Observational Data of the Atmosphere and Oceans . . . . .	361	Surface Water . . . . .	523
Ocean-Atmosphere Interactions . . . . .	365	Tornadoes . . . . .	529
Ocean Pollution and Oil Spills . . . . .	370	Tropical Weather . . . . .	535
Oceans' Origin . . . . .	376	Tsunamis . . . . .	539
Oceans' Structure . . . . .	381	Turbidity Currents and Submarine Fans . . . . .	545
Ocean Tides . . . . .	386	Van Allen Radiation Belts . . . . .	549
Ocean Waves . . . . .	391	Volcanoes: Climatic Effects . . . . .	555
Ozone Depletion and Ozone Holes . . . . .	397	Waterfalls . . . . .	561
Pacific Ocean . . . . .	404	Water Quality . . . . .	566
Persian Gulf . . . . .	410	Watersheds . . . . .	571
Precipitation . . . . .	415	Water Table . . . . .	575
Radon Gas . . . . .	421	Water Wells . . . . .	579
Rainforests and the Atmosphere . . . . .	426	Weather Forecasting . . . . .	584
Recent Climate Change Research . . . . .	430	Weather Forecasting: Numerical Weather Prediction . . . . .	588
Red Sea . . . . .	433	Weathering and Erosion . . . . .	593
Reefs . . . . .	437	Weather Modification . . . . .	599
Remote Sensing of the Atmosphere . . . . .	443	Wind . . . . .	604
Remote Sensing of the Oceans . . . . .	447	World Ocean Circulation Experiment . . . . .	610
River Bed Forms . . . . .	451	Yellow River . . . . .	615
River Flow . . . . .	456	Appendixes . . . . .	621
Salinity and Desalination . . . . .	461	Glossary . . . . .	623
Saltwater Intrusion . . . . .	467	Bibliography . . . . .	646
Sand . . . . .	472	Atmospheric Pressure: Above and Below Sea Level . . . . .	676
Satellite Meteorology . . . . .	478	Major Oil Spills in Modern History . . . . .	680
Sea Level . . . . .	484	Bodies of Water . . . . .	681
Seamounts . . . . .	489	Severe Weather . . . . .	684
Seasons . . . . .	493	Subject Index . . . . .	689
Seawater Composition . . . . .	498		
Sediment Transport and Deposition . . . . .	503
