

SALEM PRESS

Salem Health:
Infectious Diseases & Conditions
Table of Contents

Bacterial Infections

Abscesses
Acne
Actinomycosis
Acute cystitis
Acute interstitial nephritis
Acute necrotizing ulcerative gingivitis
Aminoglycoside antibiotics
Anal abscess
Anaplasmosis
Anthrax vaccine
Anthrax
Antibiotic resistance
Antibiotic-associated colitis[Antibiotic associated colitis]
Antibiotics: Experimental
Antibiotics: Types
Appendicitis
Atypical pneumonia
Bacteria: Classification and types
Bacteria: Structure and growth
Bacterial endocarditis
Bacterial infections
Bacterial meningitis
Bacterial vaginosis
Bacteriology
Bartonella infections
Bloodstream infections
Boils
Botulinum toxin infection
Botulism
Brucellosis vaccine
Brucellosis
Bubonic plague vaccine
Bubonic plague
Campylobacteriosis
Capnocytophaga infections
Cat scratch fever
Cellulitis
Cephalosporin antibiotics
Chancroid
Chlamydia
Chlamydophila pneumoniae infection
Cholecystitis
Cholera vaccine
Cholera
Clostridium difficile infection

SALEM PRESS

Conjunctivitis
Dacryocystitis
Diagnosis of bacterial infections
Diphtheria
Disseminated intravascular coagulation
Diverticulitis
DTaP vaccine
Duodenal ulcer
Ehrlichiosis
Eikenella infections
Empyema
Endocarditis
Endometritis
Enteritis
Epididymitis
Epiglottitis
Erysipelas
Erysipelothrix infection
Erythema nodosum
Escherichia coli infection
Eye infections
Fasciitis
Fever
Gangrene
Gastritis
Gingivitis
Glanders
Glycopeptide antibiotics
Gonorrhea
Group A streptococcal infection
Group B streptococcal infection
Haemophilus influenzae infection
Helicobacter pylori infection
Hib vaccine
Hordeola
Immune response to bacterial infections
Impetigo
Infectious colitis
Intestinal and stomach infections
Keratitis
Ketolide antibiotics
Kidney infection
Labyrinthitis
Legionnaires' disease
Leprosy
Leptospirosis
Lipopeptide antibiotics
Listeriosis
Lyme disease
Lymphadenitis
Macrolide antibiotics
Mastitis
Mediterranean spotted fever

SALEM PRESS

Melioidosis
Meningococcal meningitis
Meningococcal vaccine
Methicillin-resistant staph infection
Middle-ear infection
Mouth infections
Mycetoma
Mycobacterial infections
Mycoplasma pneumoniae
Mycotic aneurysm
Myocarditis
Nasopharyngeal infections
Necrotizing fasciitis
Neisserial infections
Neonatal sepsis
Nocardiosis
Ophthalmia neonatorum
Opportunistic infections
Ornithosis
Osteomyelitis
Oxazolidinone antibiotics
Pacemaker infections
Pancreatitis
Pasteurellosis
Pelvic inflammatory disease
Penicillin antibiotics
Peptic ulcer disease
Peritonitis
Pharyngitis and tonsillopharyngitis
Pilonidal cyst
Pinta
Plague
Pneumococcal infections
Pneumococcal vaccine
Pneumonia
Pontiac fever
Prevention of bacterial infections
Prostatitis
Prosthetic joint infections
Pseudomonas infections
Psittacosis
Puerperal infection
Q fever
Quinolone antibiotics
Rat-bite fever
Reiter's syndrome
Rickettsial diseases
Rocky Mountain spotted fever
Salmonellosis
Sepsis
Septic arthritis
Septic shock
Shigellosis

SALEM PRESS

Skin infections
Soilborne illness and disease
Staphylococcal infections
Stenotrophomonas infections
Strep throat
Streptococcal infections
Syphilis
Tetanus
Tooth abscess
Trachoma
Travelers' diarrhea
Treatment of bacterial infections
Tuberculosis (TB) vaccine
Tuberculosis (TB)
Tularemia
Typhoid fever
Typhoid vaccine
Typhus vaccine
Typhus
Urethritis
Urinary tract infections
Vancomycin-resistant enterococci infection
Vincent's angina
Whipple's disease
Whooping cough
Wound infections
Yaws
Yersiniosis

Diagnosis

Acid-fastness
Biochemical tests
Diagnosis of bacterial infections
Diagnosis of fungal infections
Diagnosis of parasitic diseases
Diagnosis of prion diseases
Diagnosis of protozoan diseases
Diagnosis of viral infections
Gram staining
Immunoassay
Microscopy
Polymerase chain reaction (PCR) method
Pulsed-field gel electrophoresis
Serology

Diseases and Conditions

Abscesses
Acanthamoeba infections
Acariasis
Acne
Actinomycosis
Acute cerebellar ataxia
Acute cystitis

SALEM PRESS

Acute interstitial nephritis
Acute necrotizing ulcerative gingivitis
Adenovirus infections
African sleeping sickness
Agammaglobulinemia
AIDS
Allergic bronchopulmonary aspergillosis
Amebic dysentery
Anal abscess
Anaplasmosis
Anthrax
Antibiotic-associated colitis
Appendicitis
Arthropod-borne illness and disease
Ascariasis
Aspergillosis
Asplenia
Athlete's foot
Atypical pneumonia
Autoimmune disorders
Avian influenza
Babesiosis
Bacterial endocarditis
Bacterial infections
Bacterial meningitis
Bacterial vaginosis
Balantidiasis
Bartonella infections
Behçet's syndrome
Bell's palsy
BK virus infection
Blastomycosis
Bloodstream infections
Body lice
Boils
Botulinum toxin infection
Botulism
Bronchiolitis
Bronchitis
Brucellosis
Bubonic plague
Campylobacteriosis
Candidiasis
Capillariasis
Capnocytophaga infections
Cat scratch fever
Cellulitis
Cervical cancer
Chagas' disease
Chancroid
Chickenpox
Chikungunya
Chlamydia

SALEM PRESS

Chlamydophila pneumoniae infection
Cholecystitis
Cholera
Chromoblastomycosis
Chronic fatigue syndrome
Clonorchiasis
Clostridium difficile infection
Coccidiosis
Cold sores
Colorado tick fever
Common cold
Conjunctivitis
Coronavirus infections
Cowpox
Coxsackie virus infections
Crab lice
Creutzfeldt-Jakob disease
Croup
Cryptococcosis
Cryptosporidiosis
Cysticercosis
Cytomegalovirus infection
Dacryocystitis
Dandruff
Dengue fever
Dermatomycosis
Dermatophytosis
Diphtheria
Disseminated intravascular coagulation
Diverticulitis
Dracunculiasis
Duodenal ulcer
Eastern equine encephalitis
Ebola hemorrhagic fever
Echovirus infections
Ehrlichiosis
Eikenella infections
Elephantiasis
Empyema
Encephalitis
Endocarditis
Endometritis
Enteritis
Enterobiasis
Enterovirus infections
Epididymitis
Epiglottitis
Epstein-Barr virus infection
Erysipelas
Erysipelothrix infection
Erythema infectiosum
Erythema nodosum
Escherichia coli infection

SALEM PRESS

Eye infections
Fasciitis
Fatal familial insomnia
Fever of unknown origin
Fever
Filariasis
Flukes
Fungal infections
Gangrene
Gastritis
Genital herpes
Genital warts
Gerstmann-Sträussler-Scheinker syndrome
Giardiasis
Gingivitis
Glanders
Gonorrhea
Graft-versus-host disease
Group A streptococcal infection
Group B streptococcal infection
Guillain-Barré syndrome
H1N1 influenza
Haemophilus influenzae infection
Hand, foot, and mouth disease
Hantavirus infection
Head lice
Helicobacter pylori infection
Hemorrhagic fever viral infections
Hepatitis A
Hepatitis B
Hepatitis C
Hepatitis D
Hepatitis E
Herpes simplex infection
Herpes zoster infection
Herpesvirus infections
Histoplasmosis
HIV
Hookworms
Hordeola
Human papillomavirus (HPV) infections
Iatrogenic infections
Idiopathic thrombocytopenic purpura
Impetigo
Infectious colitis
Inflammation
Influenza
Intestinal and stomach infections
Intestinal trichomoniasis
Isosporiasis
Japanese encephalitis
Jock itch
Kaposi's sarcoma

SALEM PRESS

Kawasaki disease
Keratitis
Kidney infection
Kuru
Labyrinthitis
Laryngitis
Lassa fever
Legionnaires' disease
Leishmaniasis
Leprosy
Leptospirosis
Listeriosis
Liver cancer
Lyme disease
Lymphadenitis
Malaria
Marburg hemorrhagic fever
Mastitis
Measles
Mediterranean spotted fever
Melioidosis
Meningococcal meningitis
Metapneumovirus infection
Methicillin-resistant staph infection
Middle-ear infection
Mold infections
Molluscum contagiosum
Monkeypox
Mononucleosis
Mosquito-borne viral encephalitis
Mouth infections
Mucormycosis
Mumps
Mycetoma
Mycobacterial infections
Mycoplasma pneumonia
Mycoses
Mycotic aneurysm
Myocarditis
Myositis
Nasopharyngeal infections
Necrotizing fasciitis
Neisserial infections
Neonatal sepsis
Nocardiosis
Norovirus infection
Onchocerciasis
Onychomycosis
Ophthalmia neonatorum
Opportunistic infections
Ornithosis
Osteomyelitis
Pacemaker infections

SALEM PRESS

Pancreatitis
Paracoccidioidomycosis
Parasites: Classification and types
Parasitic diseases
Parotitis
Parvovirus infections
Pasteurellosis
Pelvic inflammatory disease
Penicilliosis
Peptic ulcer disease
Pericarditis
Peritonitis
Pharyngitis and tonsillopharyngitis
Picornavirus infections
Pilonidal cyst
Pinta
Pinworms
Pityriasis rosea
Plague
Plantar warts
Pleurisy
Pneumococcal infections
Pneumocystis pneumonia
Pneumonia
Poliomyelitis
Pontiac fever
Postherpetic neuralgia
Poxvirus infections
Prion diseases
Progressive multifocal leukoencephalopathy
Prostatitis
Prosthetic joint infections
Protozoan diseases
Pseudomonas infections
Psittacosis
Puerperal infection
Q fever
Rabies
Rat-bite fever
Reiter's syndrome
Respiratory syncytial virus infections
Retroviral infections
Rheumatic fever
Rhinosporidiosis
Rhinovirus infections
Rickettsial diseases
Rift Valley fever
Ringworm
Rocky Mountain spotted fever
Roseola
Rotavirus infection
Roundworms
Rubella

SALEM PRESS

Salmonellosis
Sarcoidosis
Sarcosporidiosis
SARS
Scabies
Scarlet fever
Schistosomiasis
Seasonal influenza
Sepsis
Septic arthritis
Septic shock
Shigellosis
Shingles
Sinusitis
Skin infections
Sleeping sickness
Smallpox
Soilborne illness and disease
Sporotrichosis
Staphylococcal infections
Stenotrophomonas infections
Strep throat
Streptococcal infections
Strongyloidiasis
Subacute sclerosing panencephalitis
Syphilis
Taeniasis
Tapeworms
Tetanus
Thrush
Tinea capitis
Tinea corporis
Tinea versicolor
Tooth abscess
Toxocariasis
Toxoplasmosis
Trachoma
Travelers' diarrhea
Trichinosis
Trichomonas
Trypanosomiasis
Tuberculosis (TB)
Tularemia
Typhoid fever
Typhus
Urethritis
Urinary tract infections
Vaginal yeast infection
Vancomycin-resistant enterococci infection
Variant Creutzfeldt-Jakob disease
Vincent's angina
Viral gastroenteritis
Viral hepatitis

SALEM PRESS

Viral infections
Viral meningitis
Viral pharyngitis
Viral upper respiratory infections
Warts
West Nile virus
Whipple's disease
Whipworm infection
Whooping cough
Worm infections
Wound infections
