

Complete List of Contents

Volume 1

Contents	v	Arenaviridae	73
Publisher's Note	ix	Arthropod-borne illness and disease	75
Editor's Introduction to the First Edition	xiii	Ascariasis	79
Editor's Introduction to the Second Edition	xv	Aseptic technique	80
Contributors	xvii	Aspergillosis	82
		<i>Aspergillus</i>	84
Abscesses	1	Asplenia	86
Acanthamoeba and other		Athlete's foot	88
free-living infections	3	Atypical pneumonia	89
Acariasis	5	Autoimmune disorders	91
Acne	7	Avian influenza	95
Actinomycosis	9	Babesiosis	98
Acute cerebellar ataxia	10	Bacteria classifications and types	99
Acute cystitis	11	Bacteria: Structure and growth	103
Acute interstitial nephritis	13	Bacterial endocarditis	106
Acute necrotizing ulcerative gingivitis	14	Bacterial infections	108
Adenoviridae	15	Bacterial meningitis	112
Adenovirus infections	16	Bacterial vaginosis	114
Adenovirus vaccine	17	Bacteriology	116
African sleeping sickness	19	Balantidiasis	118
Agammaglobulinemia	20	<i>Bartonella</i> infections	119
Aging and infectious disease	22	Bats and infectious disease	121
AIDS	26	Behçet's syndrome	122
Airborne illness and disease	30	Bell's palsy	124
Allergic bronchopulmonary aspergillosis	34	Biochemical tests	125
Alliance for the Prudent Use of Antibiotics	35	Biological weapons	127
Alternative therapies for infectious diseases	36	Biostatistics	131
Amebic dysentery	40	Biosurveillance	132
Aminoglycoside antibiotics	42	Bioterrorism	136
Anal abscess	44	Birds and infectious disease	139
Anaplasmosis	45	BK virus infection	142
Anthrax	46	<i>Blastomyces</i>	143
Anthrax vaccine	48	Blastomycosis	145
Antibiotic resistance	49	Blood-borne illness and disease	146
Antibiotic stewardship	52	Bloodstream infections	150
Antibiotics: Types	53	Body lice	152
Antibodies	56	Boils	153
Antifungal drugs: Types	58	<i>Bordetella</i>	154
Antifungal drugs: Mechanisms of action	60	<i>Borrelia</i>	156
Antiparasitic drugs: Types	62	Bot Fly	158
Antiparasitic drugs: Mechanisms of action	64	Botulinum toxin infection	159
Antiviral drugs: Types	68	Botulism	161
Antiviral drugs: Mechanisms of action	70	Breast milk and infectious disease	163
Appendicitis	72	Bronchiolitis	164

SALEM HEALTH: INFECTIOUS DISEASES AND CONDITIONS

Bronchitis	166	Cold sores	267
<i>Brucella</i>	168	Colorado tick fever (CTF)	269
Brucellosis	169	Common cold	271
Brucellosis vaccine	171	Conjunctivitis	272
Bubonic plague	172	Contagious diseases	274
Bubonic plague vaccine	176	<i>Coronaviridae</i>	278
<i>Burkholderia</i>	177	Coronavirus infections	279
Caliciviridae	180	<i>Corynebacterium</i>	280
<i>Campylobacter</i>	181	Cowpox	282
Campylobacteriosis	182	Coxsackie virus infections	283
Cancer and infectious disease	184	Crab lice	284
Cancer vaccines	188	Creutzfeldt-Jakob disease	286
<i>Candida</i>	190	Croup	288
<i>Candida auris</i>	194	Cryptococcosis	290
Candidiasis	195	<i>Cryptococcus</i>	291
Capillariasis	197	Cryptosporidiosis	293
<i>Capnocytophaga</i> infections	198	<i>Cyclospora</i> infection	295
Carbapenem-resistant <i>Enterobacteriaceae</i> (CRE)	200	Cystic Fibrosis Respiratory Infections	297
Carriers	202	Cysticercosis	299
Cat scratch disease (CSD)	203	Cytomegalovirus infection	301
Cats and infectious disease	204	Cytomegalovirus vaccine	302
Causes and management of epidemics and pandemics	207	Dacryocystitis	304
Cellulitis	210	Dandruff	305
Centers for Disease Control and Prevention (CDC)	211	DDT	306
Cephalosporin antibiotics	215	Decontamination	307
Cervical cancer	217	Dengue fever	308
Chagas' disease	221	Dermatomycosis	310
Chancroid	223	Dermatophytosis	311
Chemical germicides	224	Developing countries and infectious disease	313
Chickenpox	226	Diagnosis of bacterial infections	316
Chickenpox vaccine	230	Diagnosis of fungal infections	319
Chikungunya	231	Diagnosis of parasitic diseases	321
Childbirth and infectious disease	232	Diagnosis of prion diseases	322
Children and infectious disease	236	Diagnosis of protozoan diseases	324
<i>Chlamydia</i>	241	Diagnosis of viral infections	326
<i>Chlamydia</i>	243	Diphtheria	328
<i>Chlamydia pneumoniae</i> infection	245	Disease eradication campaigns	329
Cholecystitis	246	Disinfectants and sanitizers	331
Cholera	248	Disseminated intravascular coagulation	333
Cholera vaccine	251	Disseminated intravascular coagulopathy (DIC)	335
Chromoblastomycosis	252	Diverticulitis	337
Chronic fatigue syndrome	253	Dogs and infectious disease	339
Clonorchiasis	257	Dracunculiasis	342
<i>Clonorchis sinensis</i>	258	Drug resistance	343
<i>Clostridium</i>	259	DTaP vaccine	347
<i>Clostridium difficile</i> infection	261	Duodenal ulcer	348
<i>Coccidioides</i>	264	Eastern equine encephalitis	350
Coccidiosis	265	Ebola hemorrhagic fever	351
		Echinocandin antifungals	353
		<i>Echinococcus</i>	355

Complete List of Contents

Echovirus infections	356	Epidemic Intelligence Service (EIS)	384
Ehrlichiosis	357	Epidemics and pandemics: Causes and management	386
<i>Eikenella infections</i>	358	Epidemics and pandemics: History	390
Elephantiasis	359	Epidemiology	394
Emerging and reemerging infectious diseases . .	361	<i>Epidermophyton</i>	398
Emerging Infections Network (EIN)	365	Epididymitis	399
Empyema	366	Epiglottitis	401
Encephalitis	368	Epstein-Barr virus infection	403
Encephalitis vaccine	369	Epstein-Barr virus vaccine	405
Endemic infections	370	Erysipelas	406
Endocarditis	372	<i>Erysipelothrix</i> infection	407
Endometritis	374	Erythema infectiosum	408
Enteritis	375	Erythema nodosum	409
<i>Enterobacter</i>	377	<i>Escherichia</i>	411
Enterobiasis	379	<i>Escherichia coli</i> infection	412
<i>Enterococcus</i>	380	Eye infections	415
Enterovirus infections	382		

Volume 2

Contents	v	Globalization and infectious disease	470
Complete List of Contents	ix	Glycopeptide antibiotics	475
Fasciitis	419	Gonorrhea	476
Fatal familial insomnia	420	Graft-versus-host disease (GVHD)	479
Fecal-oral route of transmission	421	Gram staining	481
Fever	423	Group A streptococcal infection	483
Fever of unknown origin	424	Group B streptococcal infection	484
Filariasis	426	Guillain-Barré syndrome	486
Filoviridae	427	<i>Haemophilus</i>	489
Fleas and infectious disease	429	<i>Haemophilus influenzae</i> infection	490
Flies and infectious disease	431	Hand, foot, and mouth disease	492
Flukes	433	Hantavirus infection	493
Food-borne illness and disease	435	Head lice	495
<i>Francisella</i>	439	<i>Helicobacter</i>	496
Fungi classification and types	441	<i>Helicobacter pylori</i> infection	498
Fungi: Structure and growth	446	Hemolytic uremic syndrome	499
<i>Fusarium</i>	450	Hemorrhagic fever viral infections	501
Gangrene	453	Hepadnaviridae	505
Gastritis	454	Hepatitis A	507
Genital herpes	455	Hepatitis B	508
Genital warts	458	Hepatitis C	510
Gerstmann-Sträussler-Scheinker syndrome (GSS)	460	Hepatitis D	513
<i>Giardia</i>	462	Hepatitis E	514
Giardiasis	463	Hepatitis vaccines	515
Gingivitis	465	Herpes simplex infection	516
Glanders	467	Herpes zoster infection	517
Global Warming and Infectious Diseases	468	Herpes zoster vaccines	519
		Herpesviridae	520
		Herpesvirus infections	522

SALEM HEALTH: INFECTIOUS DISEASES AND CONDITIONS

Hib vaccine	524	Koch’s postulates	621
<i>Histoplasma</i>	525	Kuru	622
Histoplasmosis	527	Labyrinthitis	624
HIV	528	Laryngitis	625
HIV vaccine	532	Lassa fever	627
Home remedies for infectious diseases	533	<i>Legionella</i>	628
Hookworms	535	Legionnaires’ disease	629
Hordeola	536	Leishmaniasis	631
Horizontal disease transmission	538	Leprosy	633
Hospitals and infectious disease	539	<i>Leptospira</i>	635
Hosts	543	Leptospirosis	636
Human papillomavirus (HPV) infections	544	Lipopeptide antibiotics	638
Human papillomavirus (HPV) vaccine	546	<i>Listeria</i>	639
Hygiene	548	Listeriosis	640
Hyperbaric oxygen	549	Liver cancer	642
Iatrogenic infections	551	Lyme disease	644
Idiopathic thrombocytopenic purpura	553	Lymphadenitis	648
Imidazole antifungals	555	Macrolide antibiotics	650
Immune response to bacterial infections	556	Malaria	651
Immune response to fungal infections	558	Malaria vaccine	653
Immune response to parasitic diseases	560	<i>Malassezia</i>	654
Immune response to prion diseases	562	Marburg hemorrhagic fever	656
Immune response to protozoan diseases	563	MALDI-TOF Mass Spectrometry	657
Immune response to viral infections	565	Mastitis	659
Immunity and infectious disease	567	Mathematical modeling and infectious diseases	661
Immunization and infectious disease	569	Maturation inhibitors	663
Immunoassay	574	Measles	664
Immunodeficiency	577	Mediterranean spotted fever	666
Impetigo	578	Melioidosis	667
Incubation period	580	Men and infectious disease	669
Infection	581	Meningococcal meningitis	671
Infectious disease specialists	583	Meningococcal vaccine	673
Infectious Diseases Society of America	585	Metapneumovirus infection	674
Inflammation	587	Methicillin-resistant staph infection	675
Influenza	590	Microbiology	677
Influenza vaccine	593	Microbiome	679
Insect-borne illness and disease	595	Microscopy	681
Insecticides and topical repellants	599	<i>Microsporium</i>	683
Integrase inhibitors	601	Middle-ear infection	684
Intestinal and stomach infections	602	Mites and chiggers and infectious disease	687
Intestinal trichomoniasis	606	MMR vaccine	690
Isosporiasis	608	Molecular Microbiology	691
Japanese encephalitis	610	Molluscum contagiosum	693
Jock itch	611	Monkey B virus	695
Kaposi’s sarcoma	614	Monkeypox	696
Kawasaki disease	615	Mononucleosis	698
Keratitis	616	Mosquito-borne viral encephalitis	700
Ketolide antibiotics	618	Mosquitoes and infectious disease	701
Kidney infection	619	Mouth infections	704

Complete List of Contents

Mucormycosis	708	Pathogens	791
Multi-Drug Resistance	709	Pelvic inflammatory disease	795
Mumps	712	Penicillin allergy testing	797
Mutation of pathogens	714	Penicillin antibiotics	799
Mycetoma	717	Penicilliosis	801
Mycobacterial infections	718	Peptic ulcer	802
<i>Mycobacterium</i>	720	Pericarditis	806
<i>Mycoplasma</i>	722	Peritonitis	807
<i>Mycoplasma pneumonia</i>	723	Pharyngitis and tonsillopharyngitis	808
Mycoses	725	Picornaviridae	810
Mycotic aneurysm	726	Picornavirus infections	811
Myocarditis	727	Piedraia	813
Myositis	729	Pigs and infectious disease	814
Nasopharyngeal infections	731	Pilonidal cyst	816
National Institute of Allergy and Infectious Diseases	733	Pinta	817
National Institutes of Health	734	Pinworms	818
Necrotizing fasciitis	736	Pityriasis rosea	820
<i>Neisseria</i>	738	Plague	821
Neisserial infections	740	Plantar warts	823
Neonatal sepsis	741	Pleurisy	824
Neutropenia	743	Pneumococcal infections	826
Nocardiosis	744	Pneumococcal vaccine	827
Norovirus infection	745	<i>Pneumocystis</i>	830
Onchocerciasis	748	Pneumocystis pneumonia	831
Onychomycosis	750	Pneumonia	833
Ophthalmia neonatorum	751	Polio vaccine	835
Opportunistic infections	753	Poliomyelitis	836
Oral transmission	755	Polyene antifungals	838
Ornithosis	757	Polymerase chain reaction (PCR) method	839
Osteomyelitis	758	Pontiac fever	841
Outbreaks of infectious disease	759	Postherpetic neuralgia	843
Over-the-counter (OTC) drugs and infectious disease	761	Powassan virus	844
Oxazolidinone antibiotics	764	<i>Poxviridae</i>	845
Pacemaker infections	766	Poxvirus infections	847
Pancreatitis	768	Pregnancy and infectious disease	848
<i>Paracoccidioides</i>	769	Prevention of bacterial infections	853
Paracoccidioidomycosis	771	Prevention of fungal infections	854
Paramyxoviridae	772	Prevention of parasitic diseases	856
Parasite classification and types	774	Prevention of protozoan diseases	858
Parasitic diseases	777	Prevention of viral infections	859
Parasitology	779	Primary infection	861
Parechovirus	782	Primates and infectious disease	863
Parotitis	783	Prion diseases	864
Parvoviridae	785	Prions	868
Parvovirus infections	786	Progressive multifocal leukoencephalopathy	870
Pasteurellosis	788	Prostatitis	871
Pathogenicity	790	Prosthetic joint infections	873
		Protease inhibitors	875
		Protozoa classification and types	877

Protozoan diseases	878	Psychological effects of infectious disease	885
<i>Pseudomonas</i>	881	Public health	887
<i>Pseudomonas</i> infections	883	Puerperal infection	892
Psittacosis	884	Pulsed Field Gel Electrophoresis (PFGE)	893

Volume 3

Contents	v	Schools and infectious disease	961
Complete List of Contents	vii	Secondary infection	965
Q fever	897	Sepsis	966
Quarantine	898	Septic arthritis	968
Quinolone antibiotics	899	Septic shock	969
Rabies	901	Seroconversion	971
Rabies vaccine	903	Serology	972
Rat-bite fever	904	Sexually transmitted diseases (STDs)	974
Reinfection	906	<i>Shigella</i>	978
Reiter's syndrome	907	Shigellosis	980
Reoviridae	909	Shingles	982
Reptiles and infectious disease	911	Sinusitis	984
Respiratory route of transmission	913	Skin infections	987
Respiratory syncytial virus infections	914	Sleeping nets	989
Retroviral infections	916	Sleeping sickness	990
Retroviridae	918	Smallpox	991
Reverse transcriptase inhibitors	920	Smallpox vaccine	993
Rheumatic fever	922	Social effects of infectious disease	994
Rhinoporiidiosis	923	Soilborne illness and disease	998
Rhinovirus infections	924	Sporotrichosis	1003
<i>Rhizopus</i>	925	<i>Stachybotrys</i>	1004
<i>Rickettsia</i>	927	Staphylococcal infections	1006
<i>Rickettsia parkeri</i> infection	929	<i>Staphylococcus</i>	1008
Rickettsial diseases	931	<i>Stenotrophomonas</i> infections	1010
Rift Valley fever	933	Strep throat	1011
Ringworm	934	Streptococcal infections	1012
Rocky Mountain Spotted fever	935	<i>Streptococcus</i>	1014
Rodents and infectious disease	937	Stress and infectious disease	1016
Roseola	938	Strongyloidiasis	1018
Rotavirus infection	939	Subacute sclerosing panencephalitis	1019
Rotavirus vaccine	941	Syphilis	1020
Rubella	942	T lymphocytes	1023
Saliva and infectious disease	945	Taeniasis	1024
<i>Salmonella</i>	946	Tapeworms	1025
Salmonellosis	949	Tetanus	1027
Sarcoidosis	951	Tetracycline antibiotics	1029
Sarcosporidiosis	952	Thiazole antifungals	1030
SARS	953	Thrush (infection)	1032
Scabies	955	Tick paralysis	1033
Scarlet fever	957	Ticks and infectious disease	1034
Schistosomiasis	958	Tinea capitis	1037
		Tinea corporis	1038
