Adler, Alfred	3
Adlerian psychotherapy	4
Bandura, Albert	10
Bruner, Jerome	11
Cognitive development	12
Cognitive development: Jean Piaget	18
Cognitive psychology	22
Conditioning	29
Erikson, Erik H.	35
Festinger, Leon	37
Freud, Sigmund	39
Freudian psychology	40
Hierarchy of needs	46
Identity crises	48
James, William	52
Jung, Carl	54
Jungian psychology	55
Kohlberg, Lawrence	60
Maslow, Abraham	61
Milgram experiment	62
Moral development	64
Pavlov, Ivan Petrovich	69
Pavlovian conditioning	70
Person-centered therapy (PCT)	75
Piaget, Jean	80
Radical behaviorism: B. F. Skinner	82
Rogers, Carl R.	86
Self-actualization	87
Skinner, B. F.	92
Social comparison theory	93
Social learning theory	95
Stanford prison experiment	103
Thorndike, Edward L.	106
Two-factor theory	107
Watson, John B.	109
Zimbardo, Philip	111

Conditions and Disorders	113
Abnormality: Biomedical models	115
Abnormality: Legal models	120
Abnormality: Psychological models	125
Alzheimer's disease	132
Amnesia and fugue	138
Anorexia nervosa and bulimia nervosa	141
Antisocial personality disorder	147
Anxiety disorders	152
Aphasias	156
Ataxia	162
Attention-deficit/hyperactivity disorder (ADHD)	163
Autism spectrum disorder	169
Avoidant personality disorder	173
Battered woman syndrome	175
Borderline personality disorder	177
Codependency	181
Dementia	184
Despair	187
Developmental disorders	190
Developmental psychology	194
Dysgraphia	201
Dyslexia	203
Dysphonia	207
Eating disorders	210
Factitious disorders	215
Frontal lobe syndrome	219
Frontotemporal dementia (Pick's disease)	221
Gender dysphoria syndrome	224
Geriatric psychological disorders	227
Hate crimes	232
Hypochondriasis, conversion, and somatization	235
Intellectual disability	240
Juvenile delinquency and development	245
Learned helplessness	249
Learning disorders	253
Memory disorders	256
Mood disorders	261
Multiple personality	266
Narcolepsy	270
Neurotic disorders	275
Obsessive-compulsive disorder (OCD)	279

Oedipus complex	284	Hypothesis development and testing	440
Panic attacks	286	Implosion	445
Paranoia	289	Intelligence scales	448
Parental alienation syndrome (PAS)	292	Intelligence testing	455
Personality disorders	294	Mental health screening in adults	461
Pervasive developmental disorders	300	Mental health screening in children	463
Phobias	303	Mental Status Exam	467
Postpartum depression	307	Minnesota Multiphasic Personality Inventory (MMPI)	470
Posttraumatic stress (PTS)	309	Norm-referenced testing	472
Psychological impact of disability	314	Personality rating scales	477
Reactive attachment disorder (RAD)	319	Play therapy	481
Schizoid personality disorder	321	Problem-solving stages	486
Schizophrenia: Background, types, and symptoms	324	Problem-solving strategies	490
Schizotypal personality disorder	330	Psychodynamic therapy	493
Sexual predatory behaviors	333	Psychological testing	496
Sexual variants and paraphilias	336	Psychotherapy: Goals and techniques	501
Sleep disorders	341	Psychotherapy: Historical approaches	505
Substance use disorders	345	Rational control theory	510
Suicide	349	Rational emotive therapy	516
Synesthesia	355	Reality therapy	521
<hr/>		Role conflict and role strain	525
Tests and Therapies	359	Self psychology	531
Ability testing and bias	361	Somatic norms theory	537
Aptitude testing	363	Testing, tests, and measurement	537
Aversion therapy	370	Thematic Apperception Test (TAT)	541
Beck Depression Inventory (BDI)	372	<hr/>	
Behavior and genetics	373	Neurological Considerations	543
Behavior therapy	379	Brain	545
Behavioral assessment	385	Brain damage	551
Behavioral family therapy	389	Brain lateralization	557
Biological and psychological theories of deviance	393	Cognitive neuroscience	561
California Psychological Inventory (CPI)	400	Hormones and behavior	567
Children's Depression Inventory (CDI)	402	Memory: Physiology	573
Clinical interviewing, testing, and observation	404	Memory: Sensory	579
Cognitive Abilities Test (CogAT)	408	Memory storage	585
Cognitive-behavior therapy (CBT)	410	Nervous system	590
Cognitive therapy (CT)	415	Neurology	593
Dialectical behavioral therapy	420	Neurons	599
Differential association theory	423	Neuropsychology	603
Electroconvulsive therapy	428	Neurotransmitters	608
General Aptitude Test Battery (GATB)	434	Psychopharmacology	610
Gestalt therapy	436	Sleep	616
		Synaptic transmission	621
		Thyroid gland	626

Pharmacological Considerations	633	Monoamine oxidase inhibitors (MAOIs)	662
ADHD medications	635	Opioids	665
Antianxiety medications	640	Psilocybin	668
Antidementia drugs	642	Stimulant medications	671
Antidepressant medications	646		
Antipsychotic medications	650	Bibliography	675
Baclofen	653	Glossary	719
Benzodiazepines	655	Organizations	751
Ketamine	657	Subject Index	759
